

IN THE SPECIFICATION

Please cancel the entire specification of the subject U.S. patent application, as filed, including the List of Reference Symbols, as set forth in the verified translation of PCT/EP2004/050162, in favor of the concurrently submitted Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to selected applications and of suitable section headings; the deletion of the List of Reference Symbols, and of references to the claims; the correction of minor errors in phrasing, grammar and punctuation, and a general revision of the verified translation, to place the substitute specification more in a form in accordance with U.S. practice. These various changes and revisions do not constitute any new matter. A marked-up copy of the verified translation, showing the changes made thereto, to arrive at the Substitute Specification, is submitted for the Examiner's review.
